PRIOR AUTHORIZATION (PA) LIST

PRIOR AUTHORIZATION (PA) REQUIREMENTS

Use the Pre-Auth Needed tool on our website to determine if prior authorization is required. This Prior Authorization list is provided as a quick reference. Most current information can be found within the Pre-Auth tool.

For fastest results, submit requests online at **Availity's website**. If the procedure requested meets clinical criteria, the Web provides an approval that can be printed for easy reference. The health plan supports the concept of the Primary Care Physician (PCP) as the "medical home" for its members.

For members enrolled in a PPO plan, authorization is not required for non-participating providers and facilities, however, services on the medical necessity/ authorization required list below must be covered services within the benefit plan and considered medically necessary for the plan to pay a portion of the out-of-network claim.

For members enrolled in a non-PPO plan, all services rendered by non-participating providers and facilities require authorization, including requests to use the member's Point-of-Service benefits. Specialists must coordinate all services with the member's PCP. It is the responsibility of the provider rendering care to verify that the authorization request has been approved before services are rendered.
